The Planet, the Sun and the Moon have changed …

However Our Beloved Moon continue to protect us …

Preface to the Second Edition

Thanks! ... My First Word is Thanks very much for the Welcome to my 'FT Lunar Calendar 2012' reception.

I am updating a little bit the first edition because the information about the Colors for each day ... has changed!

I got this news from God Meru and of Course is convenient to adopt and use the New Colors for each day ...

Also the Chohans that are Male and Female are changed.

The results of the Pleiadian Council are basically as follows ...

- Sun-day is Yellow, Chohan is El Morya and is a Healer.
- Moon-day is now White and the Chohan is Lord Jesus, which color is Crystal.
- Mars-day is Pink, but Red for us and the Chohan is Kuthumi, who was Pythagoras and Saint Francis.

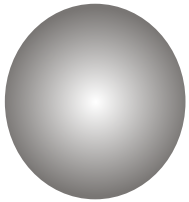
From Mars-day (Tuesday) to Saturn-day (Saturday) we have that planets Mercury and Saturn works alone or in conjunction

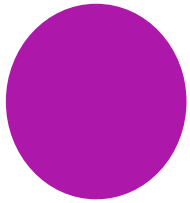
Therefore, we have,

- Mercury-day (Wednesday) is Green and the Chohan is Saint Hilarion ... but also Saint Germain, and Serapis Bey and Quan Yin.
- Jupiter-day (Thor-day, Thursday) is Royal Blue.

Sun-day **Moon-day** Mars-day Mercury-day Jupiter-day Venus-day Saturn-day

continue ...





The Color of Jesus ... is Crystal

The Color of Saint Germain is Violet

• • •

The Two Main Archangels ...

Michael

Gabriel

... On Sirius star (7D) but also on the Pleyades (5D)

continue ...

... There are an asignation between planets and days ... not 1-1 ... for the entire week ...

In fact the connection is between planets ... ***Mercury and Saturn*** ... and both planets in conjunction rules all these days ...

Therefore also Mercury rules Saturn-day and viceversa ...

Saint Mary, the Holy Woman that was Isis

When Saturn meet Mercury on Saturday ... we have Mother Mary ... and

She is the Abbot of the Acquarian Age.

Thanks!,

From the Barbara Hand Clow Pleiadian Agenda ...

"I am the Moon. I came from the surface of the planet Jupiter. The moons of Jupiter are made of the same material as I am, but I orbit around Earth and not Jupiter. A long time ago, there was a very large explosion on Jupiter, and many parts were blasted out of its gaseous body. Once they moved out of their gaseous state, they congealed into solid states, and most of them were captured in the field of Jupiter. The moons of Jupiter mirror Jupiterian consciousness back to Jupiter, as I mirror the consciousness of Earth back to you. Moons are reflectors of what you are feeling. To reflect your emotions is our primary function. In my case, I was ejected farther out from Jupiter, well past the orbit of Mars, and I was captured by the gravitational pull of Earth. Like all moons, I am a reflector of planetary feelings. And, since I come from Jupiter, which rules the mastery schools of Earth, mastery of yourself is based on whether you deal with your emotions effectively. You thought physical perfection was the most important challenge, didn't you?

"When I first arrived, the beings on Earth were the same as those who were living on Mars. Naturally, the Martian moons mirror Martian consciousness back to Mars. Life on Mars (which was once in a watery state), existing in viral and unicellular lifeforms, never evolves due to the dryness; therefore, there is no awareness of life to mirror back to Mars via its moons. Meanwhile, on Jupiter there is consciousness of linear space and time, as on Earth, because the nonphysical intelligences work with karma. Jupiter has a gaseous surface surrounding a solid core, and many of you felt its etheric beings during the 1994 Shoemaker-Levy cometary impacts. To be specific, you rebounded with your etheric spiritual teachers, guides, and angelic leaders, and many of you are in deep mourning about the pain of Jupiter. You do not yet recognize the source of this sadness, yet you feel a great power welling up inside. You are remembering your nonphysical selves at the deepest level, and this new organization of self will be more powerful than anything you have known in all your incarnational cycles.

"The traffic between Mars and Earth ceased approximately 500,000 years ago. Before that time, the beings from Earth and Mars also traveled back and forth for commerce, and often by means of 4D thoughtforms, trading legends of heroes and warriors. This was an extremely enjoyable relationship and is still the source of your endless fascination with war. This is why all of you are warriors in your male sides. Since I am just your reflector, these memories about the great feats of Mars still exist in my lunar field, and I can feel how they excite you. You always reenact this archetype to the most extreme degree during the Age of Aries, as during the most recent phase—2160 B.C. to Zero Point—and we Moon beings always say, 'There they all go doing the Age of Aries on Earth again!' Meanwhile, I am a very peaceful vibration, and I am extremely tired of these old obsessions, these tiresome old dramas on your planet, as I know you are too. I have many other memories of great archetypal stories and dreams in my awareness that I like to share.

“As the Moon, I feel energy through silvery ray vibrations. The closest thing you know of this kind of perception is the silvery gossamer light shimmering on the surface of calm water when the full Moon rises. My light is opalescent and translucent, like the flesh of a beautiful young woman’s face. I have canyons and craters on my surface, which is almost devoid of electromagnetic energy. My vibrations are so ethereal that there is almost no charge in me; I am completely balanced. I am 400 times smaller than the Sun; yet the Sun is about 400 times farther from Earth than I am, therefore, I appear to be the same size as the Sun in your sky. The Sun and I are balanced. Some of my canyons and craters are high rimmed and very deep, and within these rims, I capture electromagnetic energy from the solar wind. These vibrations bounce back and forth between the canyon rims as resonant waves, and that is how I read planetary locations and angles. When you play with echoes in your canyons, you are creating the same kind of energy in the air. I have many deep craters from asteroids and comets on my surface, and we have consciousness centers deep inside them—little round, white, domed temples. We emit thought from these structures and you receive it as dreams. These domes transmit our luminescent, ethereal frequencies and hold the records of your memories and your subconscious mental banks.

"I transmit these frequencies to those individuals who magnetically draw my energy. Humans, animals, and various other lifeforms literally magnetize or draw consciousness from me. These are extremely subtle vibrations, which differ from the polarized interactions that exist on the surface of your planet. These are feelings that form the component motivations of your reactive patterns. Neptune also transmits spiritual vibrations to you, but Neptune has an agenda with you that impulses you to create belief systems. My ethereal emanations simply mirror back memories related to experiences you have, which modulate your responses to everything. You transmit your feelings into my record temples, because you could not develop your emotional bodies without memory. Think of how a memory is triggered by a scent, a familiar sight, or a voice, and then a whole visual series of memories are unleashed in your brain as if you have movies in your head. This is because I hold memories of your soul experiences life after life, and the only way you can explore this is to examine your subconscious mind while you are in a body. How do I hold all this memory so that you have the potential of exploring your subconscious? Now that you have discovered fiber optics, you can imagine my great memory records. I have an exciting idea for you: I am able to remember so much because I feel you, and fiber optics are responding to your feelings. You just don't know that yet. Meanwhile, animals store memory in their bodies only while they are alive, and that is why they are more grounded in the present moment than you are.

"When you go through some kind of struggle, such as illness or disease, and you don't have the means in the physical to change this vibration often you can feel that the problem is emotional. When you get to die point where you really see that physical solutions are not the only possibility, I can transmit extremely accurate and valuable information to you. You would be amazed at how much you actually do understand realities via these intuitional transmissions. I enjoy reflecting back to you your own deep understandings of yourselves. Based on this great pool of awareness I have about your emotions, you do have ways to alter your physical status by means of your feelings. For example, Bach Flower Remedies will alter the vibrations that create your physical ailments, based on your ability to identify your feelings. Aromatic oils actually do shift your bodies! Certain feeling tones correspond to your vital organs, and these essences work with the alchemy of your emotional bodies. This is a more subtle and profound healing method than allopathic medicine because you can heal disease while it is still in your etheric body—you can locate 'dis-ease' that has not yet gone into your physical bodies.

"If you intend to totally open your feeling receptors in this lifetime, you can take advantage of my extraordinary teaching, but this is a total commitment. As I've said, my record temples hold your subconscious memory banks. What are these? Each one of you has a soul within your body, and that soul incarnates over and over again on Earth, on other planets, and in the stars. It seeks experience in many realms in order to know and to express itself, and my record banks hold the memories from all places, liven other galaxies! You've heard comments that beings from many realms fight to be born in a body on Earth. The reason for this is that whenever you have a lifetime on Earth, you can consciously work with your lunar subconscious memory banks, and this cannot be done in any other location. This is a vast subject, so I will say only a few things about it. Naturally, some memories are traumatic and tend to limit your expressive potential in each new lifetime. As many of you know from doing bodywork and spiritual therapy, if you are able to recover a negative past-life memory, explore it, and release it when your body is ready, you end up being lighter, more harmonic, and happier.

“So, how could you consciously work with your lunar subconscious memory banks? You'll be surprised, I'm sure! These memories exist in your minds as belief systems that repeat, 'I can't have this, I can't do that’. All your negative conclusions about past experiences are deposited in my memory banks! Positive conclusions about the past exist in your active mind; they are available to you, and they are the basis of your free actions. My banks are a storehouse of negative conclusions you've made about your potential, but you don't remember the original event. These conclusions cause you to repeat situations over and over again when you might have a chance to wipe the original negative conclusion. This tendency reduces your creativity in all new situations. What can you do about this? Here are my directions:

How to Manifest the Physical Reality that You Desire: Lunar Manifestation Technique

1) Make a list of seven things you want in your reality. If you want this to work, be reasonable, go for what you really want, not what you think you want.

2) Take your list and work with each thing on it. Take the first thing on your list, such as a radio, and say out loud to yourself, 'I want a certain radio for a certain amount of money within a certain period of time.' Describe the radio, the amount, and the time frame, and do not give a thought to how you will get it. Never think of a specific person or group who will get something for you, because then you would be manipulating others.

3) Ask yourself if you would really want the radio if you had it. Think deeply about this, because you clutter your mind with things you think you want but actually don't. Be careful about this. If you really don't want something, just let it go.

4) Create three scenes of the radio coming into your reality; visualize these scenes in front of your forehead above your eyes, then take each scene and imprint it on your medulla oblongata (the place where your spine enters your skull). Remember, don't visualize a specific person or place helping you get what you want. Do not manipulate the reality of others.

5) Repeat this process until you have created a list of seven things you really want.

6) Then, forget all about it, and put your list in a safe place.

7) Check it periodically, and soon you will begin to notice that things on the list actually manifest. Every time something does manifest, cross it off and think of something else you want and add it to your list. Keep the list of seven going.

"What does manifestation have to do with the lunar subconscious memory banks? Every time you manifest what von really want, you are erasing an 'I can't' memory in my banks. The purpose for coming to Earth is to get what you really want! Then, when you get what you really want when you want it, you end up wanting very little, like indigenous Earth people. Without even remembering or processing the experience that created an 'I can't,' then you will dissipate memories as if they never occurred—thanks to this positive assault on inner denial. You actually can discard your negative memories, so that all I reflect back to you is positive. You will feel my exquisite and subtle vibrations, and find supportive records on yourself active in your conscious mind, once you get out of denial.

"Because of my cycles—lunar nodes, eclipses, and phases—I am a screen for the surface of Earth for all of the other stellar, planetary, and solar energies. From an astronomical point of view, there is no way that I, your Moon, could screen the whole surface of the planet from all these influences. However, I gather the solar winds in my craters and canyons as I travel around the Earth for 28 days. Like a woman who always pays subtle attention to her man, I create a screening force, which is a gossamer web of feelings on Earth. The energy fields of the other bodies in your solar system reach the surface of Earth mostly by means of my light, and I transduce these energies into codes that you can comprehend through your emotions. You feel transmissions of the planets and the Sun from my light. This is how fine vibrations of feeling are held in place and communicated. If it were not for my screening, you would, in a sense, be forced to deal with feelings from Pluto that are too deep, you'd get bombarded by too much aggression from Mars, or the intensity of the Sun would exhaust you. I am like a great wave of feeling that rises, peaks, and ebbs over twenty-eight days. I exist to calibrate these great forces, and you can attune to my gossamer web of feelings by cultivating your own feelings like a fertilized garden.

"Earth goes through cycles, and the pattern I see on your surface these days is a pattern I've seen before. In the past, this pattern has been extremely threatening to biological lifeforms. Before you read my description of your appearance, please remember that I am reading the etheric body of Earth. Just as 'dis-ease' showing up in your etheric body or aura is then treated with homeopathies before it becomes a physical disease, so too can you change your feelings about the planet before these energies become full-blown Earth changes. The color of your aura is beginning to turn brown, which is not healthy, instead of being green. The tilt of your axis reflects the consciousness of your planetary body to the Sun, and it is approaching the level of tilt that has created pole shifting in the past.

"How does the present condition of Earth relate to past conditions? The biggest astronomical shift I remember occurred when the orbit of Earth around the Sun enlarged from 360 to 365-1/4 days. This was caused by two simultaneous events: the visit of Nibiru into your solar system, and a gigantic asteroid that came into the orbital pattern of the Pleiades 104,000 years ago. These two events occurring simultaneously enlarged the orbit of Earth. Nibiru is slightly smaller than Jupiter, and because of the speed of its trajectory and its reverse orbit in the solar system, it is extremely disruptive of planetary orbital patterns.3 This discontinuity caused Nibiru to lose its perfect synchronicity with Earth orbiting the Sun—3600 years to 360 days.

"Nibiru was responsible for the destruction of the fifth planet— Maldek—which is the present asteroid belt. I was orbiting around Earth at that time, and your ancestors experienced great tectonic stress during this event. There are many memories about this in my banks. At that time I was shielding your surface as much as possible from the various comets and asteroids that were flying through the solar system. The breakup of this planet, which orbited between Mars and Jupiter, generated much debris in your solar system. I took some big hits; that's why I have so many huge craters, which are the locations of domed temples holding your subconscious memory banks. These impacts were similar in intensity to July 1994, when the gaseous body of Jupiter was continually smashed by cometary fragments until the impact zone became waves of gas. This; caused the surface of Jupiter to be embroiled with potent feelings, as you know. Naturally, I can feel the strong reactions you are having, since you are reacting to how Jupiter felt when the cometary fragments blasted into her body. I have been crying since July 1994, yet few of you know where these powerful emotions are coming from. Meanwhile, Jupiter rules your fortune, your sense of potential, and I want you to know that this period is very promising. If you can figure out -what you want, you can create it! easily with Jupiter's assistance, and that is why I offered you my seven-step Lunar Manifestation Technique.

"I have been visited by beings from the Sun, and they are very beautiful and powerful. They are emissaries from the 13th dimension, a dimension beyond the basic ten-dimensional system that you are working with. My surface is very cold, and when the solar emissaries come to visit, I feel a warmth on my surface like the warmth you on feel when you lie in the Sun and feel its fire, the solar love. You are attuned to me and feel my surface when you work with ritual consciousness in relationship to my subtle light. When you do moon ceremonies and eclipse meditations, you are accessing direct lines into my subtle, emotional vibrations. These ceremonies are some of the most potent ones available to you on Earth. Whether you tune into me or not, I shower you with subtle sensations. These days, I am very concerned about your polarized emotional bodies. You've become dualized because you emphasize your masculine side over your feminine. This blocks my soft lunar screen and overexposes you to planetary vibrations, such as control and manipulation by the Anunnaki of Nibiru. They have covertly shifted you away from your female side, and this is making it difficult for you to realize how you really feel about them. This is keeping you from seeing what they are creating in every sector of your societies. If you consciously activate your female essence, then you would feel our fine ethereal vibrations all the time.

"All of the natural synchronizations of 12—such as 12 times 12 is 144, or 12 times 30 is 360—have been disrupted by the enlargement of Earth's orbit around the Sun. However, this has created the opportunity for more evolution and creativity, since everything was held in place like clockwork before that shift. Before the shift, your sense of time was of endless circles and no spirals. Now, attuning to the gradually ascending spirals of light, such as the Alcyone spiral, is the next stage of evolution. For that attunement, I am your most potent source; you already can feel the next stage of your evolution, and I am mirroring the cosmic data bank to you month by month. Remember, I am a screen for the planetary, solar, and stellar forces, and a new cosmology is forming. There is no better source for resonating with this energy than doing meditations at each of 13 new moons that occur during each solar year. The solar year is most potently accessed by doing special ceremonies during the cardinal divisions—equinoxes and solstices. Attuning to the 13 moons greatly enhances your feminine nature. This is best accomplished by meditating during the new moon and noticing what special information is available. During my cycle of 13 moons, observe the reflected solar light increasing to the full moon and intensifying those feelings; then let go of all feelings and become empty within as it wanes. Become an empty vessel for the new moon. You can wash away your ego every month from the full moon to the next new moon. You can be reborn at the new moon 13 times a year! If you do this a practice that was very advanced on your planet a long time ago, and still exists in Bali— you will feel less driven by solar forces and planetary agendas. And all this is easy because, like a nude woman, I have made myself totally available to you by making myself visible. I am so beautiful.

"It is my responsibility to display the principle of 13 for you each solar year. This way, you can feel the magical essence of 13 without thinking about it. The way for you to move the consciousness of 12 back into synchronicity-based 13 is by means of lunar cycles. Then the way to attain a structural basis is to develop solar consciousness through astrology. Astrology is the only tool you have for decoding feelings with thought; other forms of thought throw you into your head and out of your heart. You can move out of duality and polarization by dividing the horizontal planes of the dimensions into 12 zones—6 above, 6 below. This is a "place expansion" not a time expansion, as are my 13 cycles per solar year. Place expands via geometry, and time opens dimensions when it is felt and not constantly computed. You will be astounded by the brilliance and mental freedom available to you when you intensify your vibration beyond the polarized emotional-body vibration and blow it out into the principle of 12.

Notice how you run around like rats in a maze looking at your watches and thinking that what is happening is either this or that! This is why there are 12 houses in the Zodiac, even though 13 constellations and 13 moons actually imprint your awareness day and night. The stellar principle of 13 via the constellations enhances your perceptions in 5D, not 3D. You live in 3D, and that is where you can work to expand perception by seeing all dynamics as a field of 12. Working with the horoscope as a life map; divided into 12 zones is the only tool I have found that moves your awareness back into a sense of a synchronized Earth, when there were 360 days in the solar year.

"There are 12 houses in the natal house system, 6 above, 6 below, and this sets up six principles of polarity from above to below in the natal chart.

The Wheel of Twelve

Intent per Hour

You can examine these 6 polarities and apply them to yourself without knowing any astrology. Just look at the 12 basic lifestyle fields, and notice the section that reflects a struggle in your life, such as marriages/partnerships/relationships ("other" in Fig. 2). If you look to the opposite section, my/myself issues ("self" in Fig, 2), you will notice that you have a lot of energy there. For example, you are drained by a demanding relationship and you've forgotten who you are, or you are feeling very powerful yourself, but your partner complains of being ignored.

You are almost always very unbalanced in one polarity out of twelve; if you just put more energy into the weak side and modulate the side where you are too heavy, your whole personality goes right into balance!

You become harmonic, and that is when you can feel my subtle emanations! The 12 houses are solar conditioning, because the 6 upper houses represent the day— upper reality—and the lower 6 represent the night—lower world. This issue is worth mastering because when you balance, you cease being stuck on yourself. You let go, forget yourself, and magically expand to 13. A grounding in 12 is merely a basic foundation, and it is the key to handling the great solar light that infuses your mind day after day.

"Through attunement to the spiral emanation of 13 triggered by my journey during your nights, you will always feel my more subtle vibrations. That is my gift to you. I am always there for you, just as the Sun rises every day. Lunar or feminine essence is what enables you to let go of thinking for while, and just become responsive. In that, feel how timing is all. My timing is the one that penetrates your subconscious because it is what activates your pineal gland, the source of cosmic intelligence. The light that reflects off my surface is actually read by your inner brain glands. The pineal gland is the most responsive when you are in total darkness, which only occurs at the exact time of the dark moon, the new moon. Attuning to this screen keys you to stellar communications, to other planetary communications, and to solar communication.

"Alchemy occurs when my lunar light penetrates the 2D metallic consciousness of your planet. This occurs 13 times during each solar year during the new moon when Earth shields my surface from the Sun for only few minutes. The 2D metallic elementals register the subtle emanations of stars at the time of the new moon, and your pineal glands register the stellar emanations then. This recurrent field of receptive intelligence is the 'Prima Materia' of alchemy. There is a new emotional field each lunar month. Mercury crystals in your pineal glands read this vibration, which is your source of galactic intelligence. Everything is vibration, and I can only reach you with a very soft vibration in total darkness. To summarize: I screen field of the solar system to Earth all the time, and at the time of the New Moon, in the darkness I imprint an emotional field of new potential.

"Once upon a time, the Anunnaki came to Earth and changed the metal configuration of Earth by mining it for gold. However, I know even more about gold than they do. That is why I am not kidding when I say you should be listening to the wisdom of women first. There is gold in the subtle glands of your bodies, and the beings of the Moon can feel the more subtle emotional emanations of your consciousness through gold hidden in darkness of Earth. When you feel cosmic emanations, gold crystals are released out of your endocrine glands and flow into your blood. Women tend to be more cosmically connected because these crystals are released into their blood each lunar cycle.

"Each consciousness in the universe has a process for attunement with the consciousnesses of other bodies, but often these skills are dormant. It is through such mechanisms that great awareness is available to you, if you would choose to develop more perceptual linkage. By learning these skills, which are primarily 5D and higher, you will naturally override 4D control traps because you cannot be mind-controlled once you raise your vibration to a certain level. The vehicle, for example, can feel Mind Control like a bloodhound can follow the scent of an animal. By understanding these vibrations, you can perceive when you are being influenced. This is what women mean when they say they can "feel" something, on their "skin crawls." Smart men listen when women speak this way. Women must develop this potential more in themselves; then both men and women can be free of manipulation. Aren't you all tired of getting jerked around? I tune into how you feel emotionally by vibrating with the gold in your blood, and in the potent menstrual blood of women. I can feel that you've had enough of this.

"Many rituals—ceremonies that are repeated instead of being spontaneous events each time—insist that bleeding women not be present. This is because repetitive rituals are passage rites of 4D Anunnaki priestly systems. Bleeding women would instantly detect when a control dynamic was being played out, and so they are barred. Also, the power in their blood can defuse rituals. I am the Moon, I regulate women's bodies by synchronizing their pineal glands with my creative enfoldment. One day soon, you will not even consider doing any ceremony without bleeding women as energy directors. Then I, the Moon, will know that you are remember in the ancient ways of feeding Gaia.

"The Anunnaki have removed a great deal of gold from your planetary intelligence. Bui I feel the most subtle emotional emanations of your consciousness through the gold in your blood. The more you attune to my 13 lunar cycles—by gazing at me, sleeping in my light, attuning to my cycles and the movements, feeling my energy reflected in water through tides and in your emotions—then the principle of 13 will open you up. You do not have to be a women, you just need to allow women to guide you, as I guide you month by month. Guess what? You can do it tomorrow! Just change all our calendars so the year is based on the 13 lunar phases, and then demarcate your solar journeys by the equinoxes and solstices!

"There are not exactly 13 Moon cycles in one year, but every 18 years the Moon returns to its same location on the ecliptic. This cycle is called the metonic cycle, and it is the most subtle of my cycles.4 You can attune to it just by observing where I am travelling in the sky, and you can keep tour place around the Sun in mind just by observing solstices and equinoxes. In this solar system, visual communication linkage is always powerful, and that is why I am the ideal tool for you. Notice how powerful it is when planetary and stellar bodies are sighted in the sky.

"I am your friend, and I honor you when you gaze at me. You have bravely chosen to become self-reflective, and so I mirror the light of the Sun to you. You cannot gaze directly into the Sun, the source of your identity. But during the time when I am full, magnificent Sun beings come to raveling on beams of light. I receive them 13 times each year, and I gather their power and shower their vibrations into the wombs of Women."

ABC of Cycles

1 Octave (Music) = Do, Re, Mi, Fa, Sol, La, Si, Do = 7 Notes + 1 (Up Tone) = 8 Tones.

1 Octave in Decimal System = 0,1,2,3,4,5,6,7,8,9 + 1 = 10 Numbers + 1 = (11).

1 Octave in Duodecimal System = 0,1,2,3,4,5,6,7,8,9,Ƨ,Ɛ + 1 = 12 Numbers + 1 = $(13)_{10}$ = $(11)_{12}$ Numbers.

1 Octave of Week in Duodecimal are 13 days ~ One 'Trecena' in Mayan Calendar.

1/2 Duodecimal Octave in a Week, is each 7 days = A New Lunar Cycle.

13 moon(ths) of 28 days = 364 days

364 days + 1 day = 365 days.

In one day the Moon cover 13 degrees.

There are 13 Complete Moon Cycles in 1 year (365 days).

Using the Duodecimal System to write 28 "fixed" days in a month we have 1 New Lunar Cycle each 7 days.

Each New Moon-th show the Kin of the day.

The Alchemy.

I am German. (Welcome German). Loves I must give. JaJaJaJa . Because they have called me and in my beautiful certainty, rises I must offer, to you and you, to you and you. (Germain Thanks).

Universal Laws have instituted to me that only say, `Listen Lord Count. Do melody. Bring to others, so that those magical ones in their words and their moments are'. And I have dedicated myself to do it.

In the institution, multiple estates live. Jaja. But in the room of the estates, great facts must happen if they were applied.

When you are a philosopher that uses wisdom, the elegance and rise to the future step of your good path, Ja, and when are so, You are of magic, or you are yourself, and penetrate in all that, Jajaja jajaja, is waiting you.

When you decide to be a magical man, you acquire nature. When you need to live of the magic, you acquire "the Alchemy".

And when you acquire "the Alchemy" already you acquire an eternal body and when you own an eternal body, you live how many lives you want. Jajaja. Still Lives.

There are a proposal, only to observe yourself, to live yourself, to create a little more, of you and not of others. Live always your food and think not that the many beings living close to your lives or your bodies, are the expensive ones. Jajajajajaja.

I AM German. Sometimes I have been confused with a great Universal Saint. The impacibles beings of your perimeter of life. I AM but that one that helps, owning the throne of a Crystalline Amethyst Ray, to expand it to all those that know of me.

But it is not my purpose that you know about my name, my purpose is "I AM", Count German. I help you if you are the Count or the sacred Countess of the Violet Order. I do not ask anymore.

To your world orders of High Violet seasons … are coming, and trough that order, there is not having a hidden one, a disorder, but a state, clear, magical where everything dwell in sacredness in your own love, so that you do not protest by your consciousness… Ja… That happens beyond you.

Here, I am loved gentlemen, loved ladies. Proposing through my bearded words, not a hope, but a magical state, so that through it, you propend to be more than today.

Moon, Sun, stars and asters propend to be your good "I AM". But if you are your owner, if you are your master, if you are the one that appropriates of the lights of the Universe, they never shall reclaim something to you.

To quantum it is, How is the Light, and the sacred Life. To quantum it is. To quantum it is. I have arrived to you, Lord yours, of the classic world, to integrate me through my words, to do by them, union to your thinking ones, and you can in sacred, live on that, through my words, of the Magic and the Alchemy.

How many times, oh Violet Lord, Oh Lady Amethyst, you lose? How many times? How magical possibilities you lose to perceive? How many? How many safe moments, full of opportunities. That want to mean to you, that you must live in sacred more in your planet. I know not. You neither.

But a Law can exist of which owner you can be. That it gives accomplishment to you. Much. Abundant. And that Law is in my Alchemy, this that I AM telling to you.

Create when the Full Moon with whiteness is, a meditative state for you. Jajajaja. What you will meditate on? Of Yesterday no. Meditates of what you are TODAY. Do not ask, only meditates. That the Whiteness of your moon, shall do a sacred bath and through it you are the initiate, to prose, to the force, or to YOUR following I AM.

When you finish, Ja, take wet clays, take unguents of menthol of good amount. Take sufficient drops of alcohol, you take fillings of coal or iron, and when finish, you knead it all, knead it. When you got a sphere, leave it quiet and ignite a flame close it, close your eyes so that you can precipitate by your thoughts many able energies, able, very able, through your I AM to enter in the Sphere.

Be able precipitating thought, to attract ALL that and bring it to the (then-dry) clay sphere. When that, meditates on "I AM". Your thought immediately will do that your foundation before which to do, become the Union of the Creation with what you want to your life, and internally you will say,

I AM,
I AM,
I AM THE LOVE,
I AM the Violet LIGHT,
I AM My brother Superior.
I AM the Creation.
I AM the Light beyond me.
I AM the one that has called me.
I AM the one that listen beyond.
I AM The one that want to live.
I AM That I AM.

And meditate, giving the you and to your internal capacity the meditation, I AM, I AM, I AM by the time you want in your Earth.

When you believe right that there it will end, the Decree. Close it telling, "I AM", so that the decree determines in Love and Force, that must bring the sufficient thing, of the Universal amalgam, magical, that support what want you want to live, in your immediate future.

I AM not a Prophet, but I am a Great gentleman. Of the Alchemies I bring Philosophies, that are going to serve you, so that at your moments of oppression, you rescue yourself and you are as I AM.

I AM the Teacher German. Your good Sacred Conte.

End of Appendix B.

I am German (Welcome German) the Loves that inhabit your world are as pleasing as the stars, that illuminate them. Never have existed any skill, in the fields of time like in which I have existed and in one of them, you dwell.

I AM Count German, your Lord ... Magnum, of the sacred Amethyst ray. There do not exist dawn, nor aurora, when my ray wants to penetrate the soul, and the trembling heart of the beings, who inhabit worlds where I go. It does not exist. There are the tenderness of my violet Ray, where I realize my I AM and where I prevail your I AM, so that you are but the great one of All, in the times, where does not exist final, nor principle, but eternal present and perpetual love.

Jajajaja. I have been in the times of your world, of your previous ages, and live times of your future at the same time, where I wait you. But waiting you is not important, I have to teach you, so when you arrive, I can tell you, who you are, and you tell me `I AM'. And you tell me your name.

The purpose of life, where you dwell in your time, is "to think". How you are? And is to precipitate, of the scientific questionings of the Universe, the necessary Chemistries, so that can live a process, a pleasing process and of growth, where you could absorb the Light and the necessary force, not only, of everything what you see around, but of the invisible world, in all dimensional forms.

I create myself, my name is German for you, and I create me, of such way, that it is necessary, to offer my purposes of my I AM, to your world in any place where it is full of laziness, to adore you, to bring you, with my impetus, and my ray to the crust of mountains, of some valleys, of some seas, and some constant hearts, that offer the life to your world.

I AM Count German, I have lived so many lives, that I have learned definitively how to teach to live yours, to live that one, the one that your you do not know, to live the magic that you need, to live like adventurous, in the times, to live without any obstacle, and to live for all time as if you were, in each on them, the best one, of the adventurous ones.

I have lived many lives, many existences, in all of them I have enjoyed. I have lived like an evil Sir, and like the best one of all. I have needed it, like you also you have needed. But there are a difference, you never know, that you have needed it, but I know it. That leads to the time of philosophy, where the love reigns, and that concrete state where the harmony of the times is only, unique. In that harmony, where you lives, without fear, and where you do what you want, and where you live the smile, in fullness of your heart. I am dedicated lately in your Aquarian Age, in the reliefs of your good world, to take care too much, with a sacred auric ray that I own, called the Violet Ray. I will lessen the bad moments of the life, of its unfortunateness that it owns, but I could not to lessen the aims, of the beings who in continuous pride, create volcanoes and bad needs in your world.

I have come to you, with my Amethyst mantle, for a very important visit, so that you clean the abundance of tears, so that you not suffer but, which you want to bad live, and so you be better in the love. The love of your world. Jajajaja.

I am Count German. I have lived on the entrails, of the ages previous to History. And that life, by you, of that is worth neither a cent, nor a denary one. What occurred, but which must happens, is already the circumstance, where you are musketeer of your life, where you live for yourself, and not for others. Where you have the certainty of your Path. And where you never have the unintelligence, to live on the power of the other, when it suffers by.

I AM, in my love, offer this great visit, and in my visit this teaching. Do you want it? (If we want, it). Would be an alchemical and great teaching.

Do you known the Iodine? (Yes, German). Can you have it? ... in your world? ... (Yes). Do to me a sacred favor. Obtain Iodine. Place before the Iodine, effervescent lemon.

Split a lemon of your nature, in two great pieces. Cook it in waters. When the lemon, is effervescent, and the Iodine is equally boiling. Take a drop of Lemon, and a drop of Iodine, and unite it. Take a fresh drop of alcohol, and unite there. Do the content in a confinement, in a small cover locks up. Then add menthol. To one unguent. Then return to ignite the initial flame. Dilute all this, add two granules of salt and before that ... Think what you want. Do you want Triumph, Art, Philosophy? ... Do you want Health, or new estates, or to move your house? Do you want to prevail in your money? ... Ignite that again. Take from your right hand, your middle finger, although it burns a little, the finger, take there, use like an unguent. If you want health, bring on your navel, grease it, and leave there for a little while. If you need courage and nurturing, do it on your heart. If you need thoughts, attributes and force, apply on the centre of your eyes. (On your third eye).

That moment, shall sublimates you. That moment will let that the Alchemy can produce, the necessary moments so that live, the state of the integrity of your being, before the beginning of your world. If you call me, during the alchemical process, I will shelter you with my violet ray, and I will let you effervescent, in the moments that you need, so that, promptly you healthy and triumphant.

I AM German. The Great German. The past does not exist, when you are you. Live all, what your being, dares to live it, where you move away from the beings, who do not correspond to you, to live like A Great.
I live in a world beyond yours, my world is called 'AI'. That world is located on the Sirius star. From there I move, to your being, when you call me to teach you. It proclaim, in some moments, to be near the Goddess Hathor, the most important Goddess of your world; before the Colony, the fall of Atlantis.

Hathor, is necessary that she returns to your world, to cheer it, to revivify it. Queen Hathor lived in your world, 17,000 years of your time. The departure of her, was because a War between two continents (Lemuria and Atlantis) that produced the sank of your Atlantis, and then I have to resurge, until your good today, taking care of the Human race.

I bold myself to live, of rebellious societies, perverse and false, but I have done it very well. It live in the sacred society of Lord Abraham and Lord Jacob. I was Lord Osiris. And I dwelt in Arab places, and today I am between you.

And between you, I will realize that my magic become learned. I had bring the Light of the philosopher Stone. The lessons of Lord Hermes. The lessons of King Salomon, the Cathars and Christopher Columbus. (He was all of them).

And I want to declare you, my joys of each one of these lessons. I Lived of the Seine (Paris), I lived of the Efrautes (Babylon), I lived of the Colonies, I lived of the Chiefs, who moved your music, your rebellion, your cultural root. And when I doing it, I want you to move the Iodine, in my previous experiment, so that observe, how great you can watch your world. How great you can watch your time, and how you can give to your previous time, that you have lived, a small blotch, about what, is already not more important for you.

In some places of your world, at the moment I am, like a fervent companion, with my accumulated forces of High Ray, taking care of places that before were beautiful. In the North American places, Arab, and South Americans, places, in European places, and other many endless places.

You never ever know, how your earth is distributed in the time. If you could allow, without living many lives, but a single one, watch your world. You would saw as a single continent, that then split, and then arise earths in the middle of the separation. At the end of your world, at the end of your continent, and they sank themselves.

You would see how your earths get back to be where they dwell before. How your South Pole, push Australia, and bring it towards Russia, how your North Pole will move towards the West, and enters definitively to be associated, with Peru. How do you see, how one born and how one dies.

As you are not, I AM. You cannot see.

And in your world shall happens, what always happens, even in you. I AM giving you a very certain and perfect state. Your world moves, likes you, you live and need to claim out, who you are, and if you do not say, then nothing happens in you.

But I say it to you, in the movement of saying, the voice of the sacred gentlemen of the Universe, announce, "Come to us, being yourself".

I AM German. I AM, I. Learn to be, you in yourself, so that you learn to live without others, but to nourish with you and you live the reason, of your life.

Make the IODINE (Experiment). Take this next sacred formula.

Take a little small marsh, mallow. Even small, some mud of it, that fits in your two fingers, primary thumb and index. Make a small ball. Add to it, a little alcohol. When you have it, Think! ... observing it… What you want? And then throw before the vestige, a blowing, of what you want. Let it dry, the sacred alchemical place, that you realize. At night, when you go to sleep and awake, take the granule, that already is dry, and bring to your mouth and place under your tongue, until it disintegrate, that it shall do the miracle. Do you understand? (Yes, German).

Appendix C: How to realize your Dreams. 9/11.

If you have Cancer, make equal. And when you awake in your night, say `What you have'... Say that the Fire is burning you, your heart. Your inner being. And take the capsule previously done, and bring it, below your tongue, and return to sleep, that it will help you. And if you, do it for thirty days, it will help you too much more.

Take honey from the bee, in its dense content. Take the content from the essence of Scorpio, if you can have it, and unite it, to a drop of the honey. Add a little of Iodine, that infinitesimal. Keep that content, for a moment, in a place that owns Gold. Think about you. In your health. Think about your bad aims. In your sadness, human poverties, and after a fasting where hours happen, swallow the content. It will let you sleep. It let you travel your consciousness, but when you return, you awoke like a formidable human being, and would think better than thirty leaders. And you would solve all your bad moments.

And when you have a bad cancerous moment, take a drop, of the essence of a beautiful and great serpent. Ja. Fill it with light, that is the violet mine. Cool it. Then place a drop, of bee's honey. Bring it all the product to my Violet Light, and in small mallow, that you realize, eat it. And say, "I AM THE UNIVERSE", that you will be healed immediately.

It is not necessary, as the men in your life, say to you, of my alchemies, that you do, like they are not. Of my power, it is necessary that realize my alchemies, as they are, in its essence.

Your years are not perfect, because they are necessary years, that must be purified. Associate your actual years with my Light.

Have a violet Light, close to you, when your dreams opaque the measurement of the Sun. And tell me through it, "Listen, magical man German. Accompany me. Tell me in my dream, what I must live, and bring me your magic, your essence, your Alchemy", then when I listen you, you can give me the authorization to precipitate from my skies, what you need for, to become Great.

Live, in the greatest measurement of all knowledge, live without to be of miracles, the stay in your heart, and do not live any more without to know what will happen.

I AM German, your Gentleman. The Sacred Count. I want to embrace you, and give some words to you.

In my loves, never a past has existed. In my loves, always happens a present, and live by them, my eternity, in my world, the world that is yours. I can speak to ... to the same time, to the men who live Century 14, 15 and 16, that, as to you, that live your century 21.

I can be to the same time, like Osiris, living to side of Lord Essen, or being with the Hathor Goddess, that like to live before you, and at the same time, in my world, Sirius.

And it is necessary, that you bring, in your consciousness, how to do it, and not living on those moments, where your being does not have the hope of the alchemy.
